

GUARDSMEN

The guardsmen designed by Kay Bojesen - a Danish classic.

The famous Danish guardsmen made of wood have their roots back in 1942, and have almost become a symbol of Denmark.

The wooden guardsmen are very popular as gifts to people living abroad, and also serve well as decoration. The wooden guardsmen are represent the highest quality workmanship and are decorated with pure gold leaf. The guardsman of 1 metre looks handsome and elegant as a guardian by entrances, while the small guardsman of 22 cm may be used as a humorous and timeless design on the shelf.
