

## WINE AND CARAFE STOPPER

The Grand Cru wine and carafe stopper.

Place the stopper in the bottle or any of the carafes, press lightly and the weight of the stopper will make an airtight seal.

- ✓ The Grand Cru wine stopper is a cone shape that will seal most bottles effectively.
- ✓ The weight of the steel top and the flexible rubber are perfectly matched to produce an airtight seal every time.
- ✓ The Grand Cru carafe stopper is specially designed for the Grand Cru wine carafes, but also fits normal wine bottles.
- ✓ The design of the wine and carafe stopper complements other items in the Grand Cru range.

The Grand Cru wine stopper is made from solid matt polished stainless steel and black rubber. (All materials are food and drinks compatible.)
